Easy to work with. Communication with students is direct and clear. Kind.

Good strength

I Gagandeep Kaur(300214676), I learn alot of things and material which is very helpful to me in another courses like how to make presentations etc. I like this course because it enhance my knowledge. If I talk about instructor he is very helpful and teach us in very attractive way.

Thanks Professor.

Instructor is very good. He always speaks politely. Always answers each and every question. Use time very well. Didn't get bored while teaching.

The instructor behaved like we are his priority he put our choice first like he asked how we want this course to happen, like we want mid term or how much assignments we want. As a first semester student I've not seen this kind of preference this far. He's very kind with us he listen to the problem and he really help us. We enjoy his class because of the jokes he maker because of the interesting his slides are he teaches every part very carefully and interestingly. I've never been able to learn that much about computer but because of the assignments and the classes I really know a lot now. If we ask any doubt again and again he answers that very kindly and perfectly. He always encourages us with our work. Over all nobody's perfect but he's perfect teacher.

This course has been really great. The instructor is really supportive and the course is very informative.

.

Bit boring a times, making it hard to concentrate in class.

Nothing

Nothing.

Professor should have to be more strict. Like in class sometimes students come late or cell phones were ringing, professor didn't scold them.

i think if the moduleess could be a little bit better in terms of being in working function specifically the modules produce alot of errors when it should not fruthermore during ppt modules the audio and video section were missing completley
