Part II: Comment Section

13. Please comment on the instructional strengths of the instructor, particularly for questions above which you rated as good or very good.

Comments: Overall (6)

Awesome prof, liked his way of teaching

Effective use of class time

easy to understand presentations for the class

objectives of the course are made clear

professor is accessible outside of class timings

He made sure that we were learning each week as he planned the course in a way that we'd revise before each class and that helped in studying the material throughout the semester. His way of introducing practical implication using simulation for project management was an interesting way to apply the knowledge that we were gaining from the course. He organized the class time well and taught the material in an interactive way so that the class would not sleep through the lecture.

N/A

Professor is very friendly and always create an environment to learn in a better way. Focus more on practical than theoretical.

Professor's course website is very helpful and the simulation which we are doing every week is very helpful and we are learning a lot from it.

14. What suggestions for instructional improvement can you make to the instructor, particularly for the questions above which you rated fair, poor, or very poor?

Comments: Overall (5)

I would really appreciate if he had given the scores for the assignments and quizzes on time as that would've helped to understand our mistakes and avoid them in future assignments.

It's going fine

N/A

No suggestions every thing is going well

Try to reduce the activities so that it will not become a burden on the students.
