Amazing professor, he has a deep knowledge about the course. good communication with students always support us.

Awesome teacher , explains everything very clearly and Gives great advice to students on how to prepare for exams.

Excellent

Excellent teaching skills

He is a good teacher

and his way of teaching is not boring

He is so friendly with his students. Which creates a good learning environment as well as I enjoy to be in his class

He's nice and chill, and will go over stuff you don't understand if you ask. Basically an almost ideal teacher

I liked how the quizzes were done.

I think the professor has been successful in teaching and making the students understand the material so far. He explains the material in depth and is really welcoming to questions from the students. His exams and evaluation is really fair and not too challenging. One thing that I like the most is that he gives a detailed feedback on the exams which helps us understand in detail where we went wrong and gives us the opportunity to fix it in the future. The projects and labs are really engaging and interesting which encourages us to learn the topic using external sources and websites. Overall I think the way the professor teaches is very good.

Its intresting for me as how we are active while learning certain topic.

My instructor has plenty of knowledge about my course and his ways of teaching through online resources is very interesting.

Professor is really friendly and polite in his teaching. He made the course easy and quite simple.

The instructor is highly knowledgable in the subject matter and explains the concepts well. The weekly labs and occassional projects also help to understand the concepts better. The course materials and lecture notes are comprehensive and easy to understand. Overall, he is a great teacher.

The prof is funny and is able to make each lecture enjoyable, his workload he distributes is great and is not too stressful as he always goes into depth in each lecture about the content in the slides. Overall the professors teaching abilites are amazing.

14. What suggestions for instructional improvement can you make to the instructor, particularly for the questions above which you rated fair, poor, or very poor? (950 character limit)

A little more time for the quizzes (For uploading the files to the server)

I did not make any suggestions on poor or very poor.

I felt too many marks were deducted for tiny things while submitting the quizzes .

I think, one think that i noticed is very less time in Quizzes and exam. Therefore, please consider it serious to increase timming.

I would say its pretty intresting as to how he make us learn and do various lab and project for being active while learning.

If they were more free to answer questions and help during the days we don't have class.

More in person classes

No improvements required...All good

None

Nothing

Nothing, he is perfect one.

Nothing,he's just perfect perfect perfect

Very good
