13. Please comment on the instructional strengths of the instructor, particularly for questions above which you rated as good or very good.

Comments: Overall (3)

Has positive response to any matter and deals with students nicely

---

He has th ability to accomadate everyone and make each studnt decipher the concepts even if one has no computing science background . He is also a hands on instructor.

The course is very well structured and understandable. Our Professor also teaches us without rushing to ensure we understand every concept aspect. We have been taught a solid HTML base. It is really fun learning in CIS-145 and rewarding at the same time.

14. What suggestions for instructional improvement can you make to the instructor, particularly for the questions above which you rated fair, poor, or very poor?

Comments: Overall (2)

None

The course is just amazing and I don't feel there is any improvement to be made. Moreover, any course which follows the CIS-145 teaching concept would be really fun to learn in the future.
